

# Carbon and Climate Change Consultant – Aviation

Air Quality Consultants Ltd

Location: Bristol

## Role Location

The role would be office/home hybrid based in Bristol. We can offer candidates alternative office locations in London, Brighton, Leeds or Warrington Occasional travel may be required for specific project needs such as meetings.

## The Company

Logika Group is a leading UK-based independent environmental consultancy, underpinned by a growing team of experts in environmental policy, strategy, design, and assessment.

With offices in London, Bristol, Warrington, Brighton and Belgium, Logika Group comprises of four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants and Logika Europe with the Environmental Policy and Economics team working horizontally across the Group.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients.

As such, we pride ourselves on being able to:

- Service a wide range of our clients' needs
- Employ the best people to provide the highest quality advice
- Provide a personal service
- Deliver innovative cross-disciplinary solutions
- Respond quickly and efficiently
- Offer value for money

With a proven track record of success, Logika Group has been involved with UK Government expert groups and European Commission working groups, provided expert evidence at Public Inquiries, and helped clients gain planning consent for thousands of projects.

## The Role

We have a number of projects in the aviation sector and are seeking a carbon and climate change consultant with experience in the aviation sector to join our team. We work with major airports to deliver carbon and climate change assessments primarily associated to expansion projects and planning applications, but also to support day-to-day carbon management and climate change planning.

Outside of aviation, our work includes supporting clients in the assessment of climate change impacts of projects in a wide range of sectors including renewable energy, transport infrastructure and industry. We work with developers, designers and engineers to ensure each new development minimises its greenhouse gas (GHG) emissions, aligns to net zero goals, and is resilient and adaptable to future climate change impacts. We develop GHG inventories for a wide variety of projects and developments, produce GHG and climate change assessments for Environmental Impact Assessment (EIA) and planning, and advise on setting emission reduction targets. We also help clients develop climate-related strategies, undertake climate change risk assessments and provide technical, scientific, and socioeconomic advice, based on objective, impartial and evidence-based analysis of a climate change policy.

The successful candidate will join the team to support deliver carbon and climate change work on major aviation projects, as well as help to support a wide range of on-going GHG and climate change projects to support EIAs.

This is an exceptional opportunity at an exciting time both for our business and for environmental consultancy. With us, you will be involved at the heart of the team and will play a key role in the delivery of our work. You will work in a friendly, supportive environment and will be given one to one support, mentoring, learning and development via experienced colleagues. External training will be provided where required.

### **Skills and experience we are looking for**

Candidates will need to be able to work on their own and as part of a team, sharing responsibility for the management of both projects and staff.

### **Key Skills**

Ideal candidates will be able to demonstrate experience in all or most of the following:

- Direct experience in or high level of understanding of the aviation sector.
- An understanding of UK and international climate legislation and policy drivers.
- Understanding of or experience in Environmental Impact Assessment (EIA).
- Experience in major infrastructure projects.
- Experience in engagement and collaboration with a range of stakeholders including technical subject matter experts, academia, industry, local and national Government and regulators.
- Experience in drafting technical reports for non-technical audiences (such as Environmental Statement chapters).
- Track-record in the consultancy sector.
- Excellent communication skills and ability to write clear and concise reports in English.
- High technical capability and ability to review and interpret data.
- Organisation, initiative, and the ability to plan your work and adhere to fixed deadlines.

### **Desirable Qualifications:**

- MSc or higher in an appropriate science or engineering-based discipline.
- Membership of relevant professional institutions.

## What we offer

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

Alongside a competitive salary, we offer a range of formal benefits and training and development programmes to enhance employee satisfaction and professional development. These include, enhanced pension scheme, private medical insurance, competitive annual leave entitlement which grows with length of service, additional annual leave purchase scheme, rail and bus season ticket loans, cycle scheme, group life assurance, staff training and CPD programme, employee recognition awards, social value programme and more.

Furthermore, we ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders and readily available support through our Employee Assistance programme.

Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

## Our Values

Logika Group is underpinned by three clear values – **Community, Collaboration and Professionalism & Integrity** - developed by our staff members to reflect our shared principles, approach to our work and positive company culture.
