

Flood Risk and Drainage

Associate Director / Principal Consultant

Logika Consultants Limited

Location: Bristol or Leeds

Role Location

Due to exciting project wins, we are seeking a motivated and experienced Associate Director / Principal Consultant to join our growing Water team. Ideally based in Leeds or Bristol, however other locations will be considered. This role offers the opportunity to grow a geographical area of the Water team, whilst being fully integrated within and supported by the existing team.

We are looking for passionate individuals who are excited to contribute their expertise to a diverse portfolio of high-profile Flood Risk and Drainage related projects. If you are excited about the opportunity to work with a forward-thinking company that values creativity, innovation, and collaboration, we would love to hear from you.

The Company

Logika Group is a leading independent environmental consultancy, underpinned by a growing team of experts in environmental policy, strategy, design, and assessment.

With offices in London, Bristol, Warrington, Brighton, Leeds and Belgium, Logika Group comprises of four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants and Logika Europe.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients. We were recognised as a 'top 25 leading player' in UK Environmental and Sustainability Consulting by Environmental Analyst.

We pride ourselves on being able to:

- Employ the best people to provide the highest quality advice
- Provide a personal service
- Deliver meaningful work to a high technical standard, which protects and improves the environment
- Design innovative cross-disciplinary solutions

With a proven track record of success, Logika Group has been involved with UK Government expert groups and European Commission working groups, provided expert evidence at Public Inquiries, and helped clients gain planning consent for thousands of projects.

Logika Group is underpinned by three clear values – **Community, Collaboration and Integrity** - developed by our staff members to reflect our shared principles, approach to our work and positive company culture.

The Role

We are seeking an experienced Flood Risk and Drainage Consultant at an Associate Director / Principal level to join our team.

Our new team member will assist and oversee preparation of Flood Risk Assessments (FRA) and Drainage Strategies for large-scale and major developments within the property, renewable energy, and aviation sectors. To accompany FRAs, the work could include river restoration feasibility, Water Framework Directive, and Nutrient Neutrality.

The role will include leading on complex strategic sites, alongside providing mentoring, review, oversight, and support to junior members of the team. This is an exciting opportunity to join a forward-thinking solution focused environmental consultancy with sustainability at its heart.

Projects will include early strategy development, through to feasibility, outline design, planning submission, and discharge of conditions. You will have the opportunity to work within various consenting regimes, including Development Consent Orders and Town and Country Planning.

It is the philosophy of Logika that the role of an environmental consultant should be to ensure that environmental issues are at the heart of development design. Therefore, it is of importance that you are confident when engaging with a wide variety of stakeholder groups, clients, and design teams to clearly communicate opportunities and constraints within a scheme, and embed environmental design solutions into development proposals. You will lead in designing SuDS schemes, integrating flood mitigation strategies within masterplans, and preparing/reviewing reports.

Core Skills and Experience

Whilst we are seeking the following core skills and experience, we still encourage applications where they may have comparable experience within flood modelling to apply:

- Excellent knowledge of the planning system, in particular flood related policy and guidance such as the NPPF and SuDS Manual.
- Ability to recognise and communicate flood risk and drainage related constraints and opportunities at development sites.
- Extensive experience producing complex FRAs and drainage strategies.
- Excellent project management and communication skills.
- Ability to write clear and concise reports, alongside reviewing reports prepared by the team.
- The ability to work collaboratively as part of an established team.
- Good knowledge and experience of InfoDrainage (or other drainage modelling software), AutoCAD and GIS.
- Experience of bid preparation and business development activities.

What we offer

We are a growing Group of companies who want to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career.

Alongside a competitive salary, we offer a range of formal benefits and training, and development programmes to enhance employee satisfaction and professional development. These include, an enhanced pension scheme, private medical insurance, competitive annual leave entitlement which grows with length of service, additional annual leave purchase scheme, rail and bus season ticket loans, cycle scheme, group life assurance, staff training and CPD programme, employee recognition awards, social value programme and more.

We ensure we support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders, and readily available support through our Employee Assistance programme.

Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

How to apply

Please apply using the application form on our website – www.logikagroup.com/careers If you have any questions on the role and/or group, then send them through to careers@logikagroup.com.
