

Graduate/Assistant Consultant x 2

Environmental Policy and Economics

Logika Group

Location: Bristol or London

Role Location

The role would be office based in Bristol or London. Occasional travel, including international travel, may be required for specific project needs such as meetings.

The Company

Logika Group is a leading independent environmental consultancy with deep expertise in environmental policy and economics, climate change, ecology, biodiversity and natural capital, flood risk, drainage, water quality and management, noise, air quality, industrial pollution control, chemicals, and circular economy.

With offices in London, Bristol, Warrington, Brighton, Leeds and Belgium, Logika Group comprises four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants and Logika Europe.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients.

We were recognised as a 'top 25 leading player' in UK Environmental and Sustainability Consulting by Environmental Analyst. We pride ourselves in delivering meaningful work, to a high technical standard, which protects and improves the environment. Our work has won awards for innovation, and our senior experts sit on several national and international expert panels.

We are underpinned by our values of **Community, Collaboration and Integrity** – developed by staff members to reflect our shared principles, approach to our work and our positive company culture.

The Role

In 2020, we established an Environmental Policy and Economics Practice that works horizontally across the group. This part of our business provides high-quality advice, strategic insight, scientific, technical and economic analysis in a range of environmental policy areas. These include climate change, air quality and emissions, chemicals, circular economy, waste and water policy. Our work is based on objective, impartial and evidence-based analysis. Further details can be found on our website: environmentalpolicyandeconomics.com

We operate at the forefront of the development and implementation of environmental policy, for international bodies, governments, businesses, and NGOs. Our existing clients include national

governments, the European Commission, international development banks, environmental NGOs, the UN as well as international industry trade associations and companies.

The team has established positions on a range of frameworks with the European Commission and UK Government and secured work with a wide range of clients in the UK, Europe, North America and across Asia. We have a growing track record of completed and ongoing contracts. We are now looking for one or two Assistant Consultants to join the team. If you have a keen interest in environmental policy, are able to conduct detailed research, can critically analyse information and analyse and interrogate data communicating clearly both verbally and in writing, then we want to hear from you.

This is an exceptional opportunity at an exciting time both for our business and for international environmental policy. With us, you will be involved in development and implementation of the strategy of the new company and play a key role in the delivery of our work. You will have opportunities for business development, international travel and for career progression.

In return, you will work in a friendly, supportive environment. You will be given one to one support, mentoring, learning and development via experienced colleagues. We have a graduate training programme alongside a structured induction plan to help you settle in.

Skills and experience we are looking for

Essential:

- A demonstrable interest in developing a career in environmental policy
- Postgraduate qualification in environmental science / technology, environmental economics, law or policy or a closely related discipline
- Excellent communication skills and ability to write clear and concise reports in English
- Ability and willingness to collaborate with colleagues as a team
- Strong critical analysis skills, building on quantitative and/or qualitative insights and data to form robust, evidence-based conclusions and recommendations
- Knowledge of at least one of the following topics and the underlying science and policies: circular economy, chemicals, air quality, industrial emissions, water or climate change
- Demonstrable experience in at least one of the following: national / international environmental policy development and implementation; evaluation of technical / policy measures; cost-benefit analysis; data collection, validation and analysis; and stakeholder consultation
- Organisation, initiative and the ability to plan your work and adhere to fixed deadlines
- Desire to grow and develop, building on self-reflection and feedback from others

Desirable:

- Experience of environmental or policy analysis within a consultancy, government, research agency/think tank, NGO or private sector / industry organisation
- Understanding of the development of public policy and the methods for assessing the economic and environmental impacts of government action
- EU language capabilities

Candidates will need to be able to work on their own and as part of a team, sharing responsibility for the management of task and projects.

What we offer

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

Alongside a competitive salary, we offer a range of formal benefits and training, and development programmes to enhance employee satisfaction and professional development. These include, an enhanced pension scheme, private medical insurance, competitive annual leave entitlement which grows with length of service, additional annual leave purchase scheme, rail and bus season ticket loans, cycle scheme, group life assurance, staff training and CPD programme, employee recognition awards, social value programme and more.

Furthermore, we ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders, and readily available support through our Employee Assistance programme.

Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.
