

# Junior Acoustic Consultant

Logika Group

Location: Bristol or Warrington

## Role Location

The role would be primarily office based. Occasional travel may be required for specific project needs.

## The Company

Logika Group is a leading independent environmental consultancy, underpinned by a growing team of experts in environmental policy, strategy, design, and assessment.

With offices in London, Bristol, Warrington, Brighton, Leeds and Belgium, Logika Group comprises four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants, and Logika Europe.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients. We were recognised as a 'top 25 leading player' in UK Environmental and Sustainability Consulting by Environmental Analyst.

We pride ourselves on being able to:

- Employ the best people to provide the highest quality advice
- Provide a personal service
- Deliver meaningful work to a high technical standard, which protects and improves the environment
- Design innovative cross-disciplinary solutions

With a proven track record of success, Logika Group has been involved with UK Government expert groups and European Commission working groups, provided expert evidence at Public Inquiries, and helped clients gain planning consent for thousands of projects.

Logika Group is underpinned by our values of **Community, Collaboration and Integrity** – developed by our staff members to reflect our shared principles, approach to our work, and positive company culture.

## The Role

We are seeking motivated and talented **Junior Consultants (Assistant or Consultant level)** to contribute to our expanding team. This is an exceptional opportunity for individuals eager to make a tangible impact on diverse and engaging noise and vibration projects. As a key member of our team, you will be involved in projects ranging from shaping large infrastructure and renewables, aviation noise management and the built environment.

The successful candidate will have the opportunity to utilise cutting-edge digital data, sophisticated modelling tools, and data science techniques. You will also collaborate with subject matter experts in related fields, such as air quality and climate change, gaining valuable exposure to interdisciplinary projects and broadening your professional skillset. This role offers significant opportunities for professional growth and development within a dynamic and innovative environmental consultancy.

### Skills and experience we are looking for

Candidates will need to be able to work on their own and as part of a team, sharing responsibility for the management of both projects and staff.

### Key Skills

Ideal candidates will be able to demonstrate experience in all or most of the following:

- **Acoustic Fundamentals:** A solid understanding of environmental acoustics principles.
- **Communication:** Good written and oral communication skills, with the ability to produce clear and concise reports.
- **Technical Skills:** Strong technical capability and ability to review and interpret data. Experience with data analysis and interpretation.
- **Data Analysis:** Strong mathematical / quantitative analysis skills.
- **Software Proficiency:** High level of proficiency in using Microsoft Excel and Word.
- **Organisational Skills:** Strong organisational skills with the ability to prioritise and deliver work to deadlines.
- **Site Work:** Ability and willingness to undertake site-based and field work.
- **Initiative:** Dynamic self-starter with attention to detail.

Ideal candidates will be able to demonstrate skills and expertise in some of the following desirable experience:

- **Driving License:** A full, clean UK driving license is required, as travel will be necessary.
- **Programming Experience:** Any languages or tools.
- **Building Acoustics** experience.

Qualifications:

- **Education:** Relevant A-Levels or equivalent. BSc or MSc in Acoustics, physics, or a numerate subject.

### What we offer

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

Alongside a competitive salary, we offer a range of formal benefits and training, and development programmes to enhance employee satisfaction and professional development. These include, an enhanced pension scheme, private medical insurance, competitive annual leave entitlement which grows with length of service, additional annual leave purchase scheme, rail and bus season ticket loans, cycle scheme, group life assurance, staff training and CPD programme, employee recognition awards, social value programme and more.

Furthermore, we ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders, and readily available support through our Employee Assistance programme.

Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

### **How to apply**
