

# International Air Quality Director

## Air Quality Consultants Ltd

Location: London, Warrington, Bristol, Brighton or Brussels

### Role Location

We have offices in London, Warrington, Bristol, Brighton and Brussels. However, recognising the nature of the work and the focus on the market outside of Europe, we can be flexible on location.

### The Company

Logika Group is a leading UK-based independent environmental consultancy, underpinned by a growing team of experts in environmental policy, strategy, design, and assessment.

With offices in London, Bristol, Warrington, Brighton and Belgium, Logika Group comprises of four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants and Logika Europe with the Environmental Policy and Economics team working horizontally across the Group.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients.

As such, we pride ourselves on being able to:

- Service a wide range of our clients' needs
- Employ the best people to provide the highest quality advice
- Provide a personal service
- Deliver innovative cross-disciplinary solutions
- Respond quickly and efficiently
- Offer value for money

With a proven track record of success, Logika Group has been involved with UK Government expert groups and European Commission working groups, provided expert evidence at Public Inquiries, and helped clients gain planning consent for thousands of projects.

### The Role

The team has established positions on a broad range of framework contracts with the European Commission and UK Government in relation to air quality (amongst others) and secured work with a wide range of clients in the UK, Europe, North America and across Asia. We are now looking for a new addition to help us accelerate our growth in the international air quality market, with a particular focus on growth outside the EU. This would be a senior level role tasked with building on our existing portfolio and skillsets to target further work for existing clients such as the UN, World Bank, ADB and various national

governments as well as to expand our offering for a wider range of clients and geographies e.g. C40, CAF, GIZ, CCAC. The role will report directly to the Directors of the Air Quality and Policy teams.

This is an exceptional opportunity at an exciting time both for our business and for international air quality policy. With us, you will be involved in development and implementation of a strategy for growth in our international air quality portfolio, linking through to developing climate change mitigation strategies, and play a key role in the delivery of such work. The role will entail close working with the directors of the air quality and policy parts of the Group as well as other senior staff in the business.

### **Skills and experience we are looking for**

#### Essential:

- Postgraduate qualification in air quality, environmental science, economics, law or policy with a minimum of 10 years' experience in projects related to air quality.
- Demonstrable experience in city, national and/or international air quality policy development with implementation in at least one of Europe, Africa, US and Asia.
- Knowledge and experience of delivery for key funders for international air quality work such as the UN, World Bank, ADB, C40, GIZ, relevant national governments. NGOs etc.
- Extensive experience identifying, securing and delivering air quality consultancy projects.
- Broad network of air quality relevant contacts in both the private and public sectors including key partners and networks.
- Excellent communication skills and ability to write clear and concise reports in English

#### Desirable:

- Understanding of the development of air quality and emissions policy (including clean air action planning) including the supporting evidence base such as emissions inventories and modelling outputs and methods for assessing the health, economic and environmental impacts of government action
- Experience and understanding of international climate mitigation frameworks and agreements
- Familiarity with national and international sources of government and business statistics and ability interpret and analyse such data
- Experience of air quality analysis within a consultancy, government, research agency/think tank, NGO or private sector / industry organisation
- We particularly welcome candidates with language capabilities in addition to English

### **What we offer**

We are a growing organisation that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows. We ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders and readily available support through our Employee Assistance programme.

Furthermore, along with a competitive salary, we offer a benefits package which includes an enhanced pension scheme, death in service life cover, an annual wellbeing day and social events and much more. Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

## Our Values

Logika Group is underpinned by three clear values – **Community, Collaboration and Professionalism & Integrity** - developed by our staff members to reflect our shared principles, approach to our work and positive company culture.
